Have a great summer break!

Dear Parents,

Here are some ideas to help children use their time constructively during the long summer break. Some activities require adult supervision - learning together can be loads of fun for you both, parent and child.

Most of the children are able to understand instructions given in English but it is also important that your child learns to converse in English. He / She should speak to the teacher and friends in English. Here are some teaching tips for you...

- You must converse in English with your child
