Dated : 18th July 2023

To
Parent of all students

Sub : **HEALTH ADVISORY**

Dear Parents,

It is seen that many students infected with Conjunctivitis are coming to School. Conjunctivitis is a highly infectious disease that spreads very fast. Children with conjunctivitis need rest for their eyes and avoid exposure to light and strain the eye.

For maintaining good eye hygiene during this hot and humid weather, please make sure that the child does not rub his eyes, instead encourage them to wash their eyes with water. Please advise them to wash their hands with soap frequently.

In view of the above, parents of wards suffering from Conjunctivitis are advised not to send their children to School until they recover completely.

Fr. Roy D'Sa
Principal
